

## The project

In cooperation with the local social-space-team, five social service providers from Altona Nord have launched this project.

### Main goals of the project:

Cross-generational and intercultural contacts with the mutual benefit of the respective experiences, knowledges, resources and transfer of values through practical neighborhood-assistance or help with family and household chores.

## Structure of the project

The project is structured in different sections. The „supporters“ are supported by pedagogical Experts. They also are accompanies throughout the project.

## Contact

Who wants to participate in the project “young and old in the neighborhood – the network in the quarter Altona-Nord”? You can register on the back page of the flyer or can contact us under the contact details, which are listed there.
